Fashion is a popular style, especially in clothing, footwear, lifestyle, accessories, makeup, hairstyle and body. [citation needed] Fashion is a distinctive and often constant trend in the style in which people present themselves. A fashion can become the prevailing style in behaviour or manifest the newest creations of designers, technologists, engineers, and design managers.

Most alert and thoughtful senior marketing executives are by now familiar with the concept of the product life cycle. Even a handful of uniquely cosmopolitan and up-to-date corporate presidents have familiarized themselves with this tantalizing concept. Yet a recent survey I took of such executives found none who used the concept in any strategic way [...]
